WHY I WANT TO WORK?

I am deeply passionate about learning and leveraging my knowledge to drive real-world impact. My goal is to collaborate with a forward-thinking organization where I can apply my skills in technology, business strategy, and innovation to facilitate growth. I am committed to delivering fresh ideas, strong dedication, and meaningful contributions that support the company's success and add long-term value to its objectives.

PRINCE KUMAR

FOUNDER AND CEO OF Z SNAPY PRO

TECH-DRIVEN ENTREPRENEUR | FULL-STACK DEVELOPER

Dynamic and growth-driven, I bring over 2 years of startup experience and 2+ year in full-stack development, delivering robust digital solutions for businesses. I specialize in FlutterFlow, React, Node.js, Firebase, and Odoo, combining design and code to build scalable apps and websites.

With a strong grasp of UI/UX design, Advanced features, and automation workflows, I help brands streamline operations and enhance user engagement. I'm also experienced in digital marketing, SEO, and using data analytics to drive smarter product decisions.

Confident public speaker and problem solver, I'm passionate about transforming ideas into high-impact digital products – faster, smarter, better. Let's collaborate and build what's next.💡💻

WORK EXPERIENCE

JOINCAB | APP Developer

Skillyterns | App & Web Developer

BERNOPIA | Web Developer

Times Nova | Web Developer

Worked with multiple early-stage startups and businesses, delivering full-stack web and app development solutions. My primary focus is on building scalable, user-friendly, and visually engaging platforms that align with each company's unique goals. Collaborating directly with founders and teams, I contribute to product planning, UI/UX, backend systems, and technical strategy.

Entrepreneurship & Startup Experience

SnapShiksha (India) – Founder

Launched an on-demand tutoring platform to connect students with home tutors within 30 minutes.

Developed marketing strategies and AI-powered education tools.

Led a team to scale operations and partnerships with local schools.

Ree suu (Nepal) – Founder

Started a clothing brand focusing on trendy apparel.

Gained initial traction but faced operational challenges, leading to closure.

Z-Snappy (Nepal) – Founder

Built a food delivery app similar to Zomato and Swiggy.

Managed logistics, vendor onboarding, and customer support.

Operated for 2-3 months before pivoting focus to other ventures.
